

Accordion Fold Mini Album

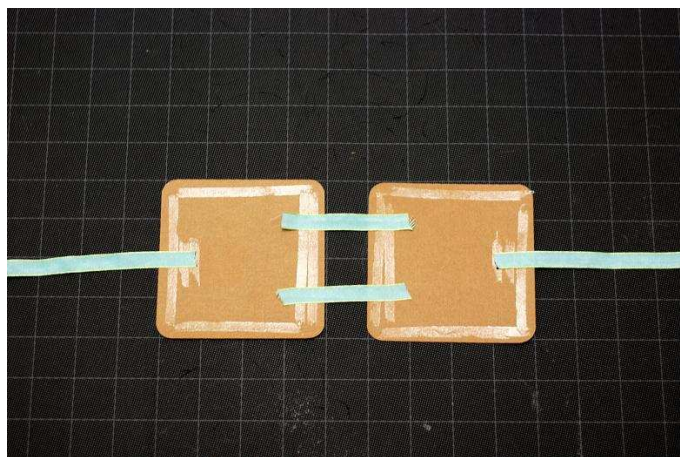

Supplies:

February 2010 Medley Kit (1 piece of Cardstock, 1 piece of double sided Patterned Paper, ribbon, pop stickers, and clips)
Letters or other embellishments (optional)

Make the Album

1. Cut 4 pieces of brown cardstock to 4x4 inches, round corners and ink if desired.
2. Cut 2 pieces of ribbon to 3 inches, and two pieces that are 10 inches long – seal the ends of the longer ribbons if desired.
3. Apply adhesive to two pieces of cardstock. Lay the short pieces of ribbon across the middle, and the long pieces on the edge for ties. Leave about 1 inch between the cardstock covers. Follow the example in the picture. Adhere the remaining two pieces of cardstock over the top to make the album covers.

Make the Inside Pages

1. Cut a piece of Patterned Paper to 9x12 inches. Score every three inches on each side so you have 12 3x3 inch squares scored in the paper.
2. With the paper in front of you vertically, cut the left scored line UP for three squares, leaving the fourth in tact. Now cut the right scored line DOWN for three squares, leaving the fourth in tact. Follow the example in the picture below.

3. Starting at one end, begin to fold the paper accordion style, when you get to the end of the row, flip the stack over to the other row and continue to fold up.

4. When you are finished, your accordion pages should look similar to this:

5. If desired, apply adhesive to the 'open pages' and secure to the accordion pages. Or you can leave the top or sides open to slide in tags and other embellishments if desired.

6. Adhere accordion pages to the inside of the album covers and embellish as desired.
