

# Acrylic Mini Album

by Tami Floyd

With acrylic albums all the rage, I set out to try to create one of my own since I wasn't able to purchase one at a store. I still found it difficult to find acrylic sheets locally at art stores. I decided to check my local home improvement center and hit the jackpot. Now I do think that the acrylic sheets may have been just a bit thicker than what I was looking for, but they did work out. The sheets came in varying sizes. I decided to go with an 11x14.

Supplies needed:

- (1) sheet 11x14 of acrylic
- Patterned papers, rubons and embellishments
- Ribbon
- (2) 1" rings
- sand paper
- utility knife
- ruler
- marker
- drill with bit

1. Start by measuring the sheet of acrylic placing a mark on the center at the top and bottom of the 11" side. Draw a line with a marker. Place your ruler along the line and use your utility knife to score the sheet several times. Turn the sheet over. Align your ruler to the same marks and score the sheet several times again. Gently apply pressure along the scored line to snap the sheet in half.

2. Take the two sheets that were just cut and find the center. Mark it and then draw a line. Once again score the sheet on the line on both sides. Gently apply pressure to snap in half. When you are done, you will have four pieces of acrylic.

3. Sand the sides of the sheets to make sure there are no jagged edges.

4. Place marks where you would like your holes for the rings on each sheet. Drill holes with the accordingly sized bit to fit the size of book ring you have chosen. I used 1" book rings.

5. Now begin decorating your acrylic pages exactly how you'd like! I used the Paper Salon Sizzle for this project. Since I didn't have specific pictures in mind for this mini album, I ended up covering the sheets with more paper, stickers, and rubons.

I hope you enjoy creating one for yourself!
